📖 LeetCode

Summary

B.Tech student in Computer Science (AI & ML) with strong foundations in Data Structures, Algorithms, and Machine Learning. Built AI-powered applications using LLMs, vector embeddings, and computer vision techniques. Hands-on exposure to cybersecurity tools such as Nmap, Burp Suite, and Metasploit for vulnerability analysis and security testing. Seeking software development or AI-focused roles.

Education

G.L. Bajaj Institute of Technology and Management	2023 – 2027
<i>B.Tech in Computer Science and Engineering (AI & ML) — CGPA: 8.5</i>	
Little Flower House	2021 – 2022
<i>Senior Secondary School — Percentage: 82%</i>	
Dalimss Sunbeam School	2019 – 2020
<i>Secondary School — Percentage: 86%</i>	

Projects

GenAI Tutor – Personalized AI Learning Platform

- Built a full-stack AI platform enabling students to upload PDFs and interact with study material using Generative AI.
- Implemented semantic search using vector embeddings for efficient document retrieval and contextual question answering.
- Integrated Google Gemini API to generate summaries, adaptive quizzes, and personalized learning responses.
- **Technologies:** Python, LLM APIs, Vector Embeddings, Semantic Search

Real-Time Emotion Detection using Machine Learning

- Built a real-time emotion recognition system using computer vision and machine learning techniques.
- Implemented face detection and feature extraction using OpenCV and trained models on labeled emotion datasets.
- Integrated the model with a live webcam feed to perform real-time emotion prediction and visualization.
- **Technologies:** Python, OpenCV, Machine Learning, Computer Vision

Technical Skills

Programming Languages: Java, JavaScript, Python, C

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Core Computer Science: Data Structures and Algorithms, OOP, DBMS

Databases: MySQL

Machine Learning: Supervised Unsupervised Learning, OpenCV

Cybersecurity: Network Security, SQL Injection, Reconnaissance, Privilege Escalation

Security Tools: Nmap, Burp Suite, Metasploit, Hydra, SQLMap, SNORT, Cutter

Certifications

- **Problem Solving** — HackerRank
- **Cybersecurity Foundation** — Palo Alto Networks Cybersecurity Academy (2026)
- **Network Security Fundamentals** — Palo Alto Networks Cybersecurity Academy (2026)
- **Cybersecurity Academy Orientation** — Palo Alto Networks Cybersecurity Academy (2026)

Achievements

- Solved **200+ Data Structures and Algorithms problems** on **LeetCode** and **HackerRank**, strengthening problem-solving ability and algorithmic thinking.
- Selected to participate in the **Smart India Hackathon (SIH)**, collaborating with a team to design technology-driven solutions for real-world problem statements.
- Participated in multiple **inter-college hackathons**, contributing to AI and software-based project development in collaborative team environments.
